## MY CONTACT

### Phone

+66 84-667-0851

### Email

sabhuri25@gmail.com

### Address

107/66 Supalai Bella  
Rama-5 11130

## SKILLS

- Software Dev  
(Basic C)
- Creative
- Teamwork

## LANGUAGE

- Thai
- English

## HOBBIES

- Listen to music
- Participating coding skill

## ABOUT MYSELF

Student from Mahidol University with a strong passion for cyber security and Data Analysis. Passionate about developing intelligen, efficient and secure software solutions that transform complex cybersecurity challenges into resilient, scalable system.

## EXPERIENCES

### Urban heat island effect on coastal a case study

Team project

In urban areas, the temperature is usually higher than in rural areas because buildings in cities are made of materials like cement, which absorb and retain heat. On the other hand, areas outside the city tend to be cooler, possibly due to the cooling effect of trees. Therefore, we should increase green spaces in urban areas—not only to reduce temperatures but also to make the environment more livable.

### Carbon credit

Team project

This study focuses on the amount of CO<sub>2</sub> credit generated by trees in different areas. I chose this topic because CO<sub>2</sub> credits have the potential to generate profit in the future.

## EDUCATION

**2025 - Present** Faculty of Infomation and Communication Technology, Mahidol University  
(Expected graduation in 2029)

**2019 - 2025** Science-Math Program, Samsenwitayalai School
